

Subject Leader – Mrs J. Connolly

Geography in the National Curriculum has one attainment target which sets out the knowledge, skills and understanding that pupils of different abilities and maturities are expected to have by the end of each key stage.

Geography is concerned with the study of real places across a range of scales. We believe that many geographical skills and themes can be taught through the study of places.

The whole school curriculum map shows coverage of topics and themes. Skills learnt in Literacy, Numeracy and ICT are consolidated through the Geography curriculum. This curriculum map can develop and change as staff explore more meaningful and imaginative links.

Marsh Green Primary School Geography Overview
