

Subject Leader – Miss L. Davies

PE develops children’s knowledge, skills and understanding, so that they can perform with increasing competence and confidence in a range of physical activities. These include; dance, games, gymnastics, swimming and water safety, athletics and outdoor adventure activities. PE promotes an understanding in children of their bodies in action. It involves thinking, selecting and applying skills and it promotes positive attitudes towards a healthy lifestyle. Thus, we enable the children to make informed choices about physical activity throughout their lives.

P.E Curriculum overview
